

IsaBiome Daily Digestive Health System

A Breakthrough in Better Gut Health

For Conventional Diets

Have you ever thought about your gut health and its impact on your overall health? So much of our weight loss and health journey is about what we can see — pounds on the scale, inches on the waist, size on the clothes — but what about the things we can't see? Scientists are now discovering that our gut health plays a huge role in weight loss and overall wellness, and our microbiome (the ecosystem of our gut and intestines) flourishes with a diversity of good bacteria (like probiotics) and digestive enzymes to break down food. It helps us feel better, lose weight, and improve our overall health.

What Is IsaBiome?

Your gut's new best friend. IsaBiome™ is a breakthrough system of uniquely formulated supplements that consists of probiotics and enzymes to support your microbiome and better digestive health.†

Why Do I Need IsaBiome?

Are you comfortable with feeling uncomfortable? Uncomfortable has become the new norm, but it's not normal. A meal shouldn't leave you feeling bloated. Many factors negatively affect gut health: poor diet, age, stress, and inadequate physical activity, all of which can cause digestive system problems, such as bloating, regularity issues, or general discomfort. Scientific studies have found that better digestive health can lead to better overall health and quality of life. If you eat a conventional diet that includes meat, this system includes enzymes to help break down and absorb nutrients from meat, dairy, fruits, and vegetables while supporting the gut with beneficial probiotics scientifically chosen for conventional-diet benefits.

How Does It Work?

Now you've got a two-step gut health solution to turn to. The conventional-diet IsaBiome Probiotics feature 25 billion total CFUs (colony-forming units, a measure of the probiotic potency) of 11 clinically tested strains of friendly bacteria for **long-term support** of a balanced digestive system, a diverse gut microbiome, and a stronger immune system. Our conventional-diet digestive-enzyme formulas include a blend of 15 different enzymes, offering an **immediate impact** to help optimize nutrient absorption, ease occasional bloating, and support gut comfort.†

IsaBiome is also available in a vegetarian-diet formula.

A Complete Gut Solution Designed With Your Diet in Mind

Many companies offer digestive enzymes or probiotics as separate products addressing separate needs. They also focus on age- or gender-specific formulas, but the No. 1 thing that has the greatest impact on the diversity of your gut microbiome is what you eat! Isagenix formulated these two unique products to complement one another and specifically complement a conventional diet that includes meat for an immediate and long-term total gut health solution. Designed with your diet preference in mind, each product delivers amazing digestive benefits on their own, but together, they deliver results unlike anything on the market.

IsaBiome Probiotics

Benefits

- **Complements** your Isagenix Weight Loss System
- **Supports** gut health and **microbiome diversity** for better overall health and well-being[†]
- **Supports** your **immune system**[†]

Key Features

- **25 billion** CFUs
- **11 clinically tested strains** of friendly bacteria for a meat-inclusive diet
- **No refrigeration required** – with the IsaBiome 3-Stage Viability Guarantee: micro-encapsulation manufacturing, advanced technology packaging, and delayed release capsules

Supplement Facts	
Serving Size 1 Capsule Servings per Container 30	
Amount per Serving	% Daily Value
Niacin (as nicotinic acid) 1 mg	6%
Vitamin B12 (as methylcobalamin) 2 mcg	83%
Vitamin K2 (as menaquinone) 10 mcg	8%
Live Cell Microbiome Diversity Blend †	
300 mg (25 billion CFU)	
<i>Bifidobacteria Blend</i>	
<i>Bifidobacterium breve</i> BR03	
<i>Bifidobacterium lactis</i> BS01	
<i>Bifidobacterium lactis</i> MB2409	
<i>Bifidobacterium longum</i> BL04	
<i>Bifidobacterium bifidum</i> MB109	
<i>Lactobacillus Blend</i>	
<i>Lactobacillus plantarum</i> LP01	
<i>Lactobacillus rhamnosus</i> LR06	
<i>Lactobacillus acidophilus</i> LA06	
<i>Bacillus coagulans</i> SNZ 1969	
<i>Saccharomyces boulardii</i>	
<i>Streptococcus thermophilus</i> ST10	
Microbiome Nutrient Blend 95 mg	†
Oligosaccharides, grape seed extract (<i>Vitis vinifera</i>), L-glutamine, EpiCor® whole-food fermentate (<i>Saccharomyces cerevisiae</i>)	

Other Ingredients: Vegetable capsule, stearic acid, microcrystalline cellulose, magnesium stearate, silicon dioxide
Contains milk ingredients.

IsaBiome Digestive Enzymes

Benefits

- **Helps break down food** to ease digestion and improve nutrient absorption
- Can help **reduce occasional bloating and discomfort after eating**[†]
- **Provides immediate** digestive support[†]

Key Features

- **15-enzyme formula** optimally chosen for a meat-inclusive diet
- **Moisture-absorbing** advanced packaging that protects the capsules from humidity damage

Supplement Facts	
Serving Size 1 Capsule Servings per Container 30	
Amount per Serving	% Daily Value
Zinc (as zinc citrate) 2 mg	18%
Conventional Diet Digestive Blend 201 mg	†
Active Fiber & Starch Enzyme Matrix	89 mg
CereCalase® (hemicellulase, beta-glucanase, phytase), amylase, alpha-galactosidase, glucoamylase, beta-glucanase, cellulase, xylanase, pectinase, invertase	
Active Dairy, Protein & Fats Enzyme Matrix	88 mg
Lactase (beta-galactosidase), protease, lipase	
Active Broad pH Range Protein Matrix	25 mg
Bromelain, papain	
Digestive Comfort Blend 135 mg	†
Gentian root (<i>Gentiana lutea</i>), ginger rhizome (<i>Zingiber officinale</i>), peppermint leaf extract (<i>Mentha piperita</i>), cardoon leaf extract (<i>Cynara cardunculus</i>), ginger rhizome extract (<i>Zingiber officinale</i>), fennel seed extract (<i>Foeniculum vulgare</i>), ionic trace mineral complex	

Other Ingredients: Vegetable capsule shell (hypromellose and water), microcrystalline cellulose, magnesium stearate, silica
